The screenshot shows the website for the Hermiston Agricultural Research and Extension Center. The browser address bar displays <https://extension.oregonstate.edu/harec>. The page features a navigation menu on the left with the following items: Locations, Hermiston Agricultural Research and Extension Center (highlighted), What We Do, Events, Faculty and Staff, Farm Fair / Field Days, and Supporters. The main content area on the right contains the text: "The Hermiston Agricultural Research & Extension Center serves nearly 500,000 acres of irrigated farmland in Oregon and Washington's Columbia Basin. The center focuses on discovery and implementation of agricultural solutions to improve farm profitability and provides solutions to farmers. HAREC emphasizes identification of new agricultural practices, plant breeding and varietal evaluation, integrated pest management and plant disease control and environmental stewardship."
